EAST LONDON MEET THE BUYER EVENT

BUYER CATALOGUE 2026

LONDON CITY AIRPORT

umi

ADECCO

Purchasing requirements:

Adecco is looking to connect with organisations across East London to explore partnership opportunities that deliver social value and improve employment outcomes for local communities. Through their expertise in recruitment, employability support and workforce development, they can help organisations strengthen community impact programmes, support residents into work, and develop employment and skills initiatives.
Meet with Adecco to discuss partnership opportunities, gain valuable labour market insights, share best practice and explore how collaborative projects can deliver positive outcomes for local people and communities.

GOVERNMENT COMMERCIAL AGENCY

Purchasing requirements:

Government Commercial Agency

Meet with the Government Commercial Agency (GCA), the UK's central commercial and procurement organisation, and gain valuable insight into public sector procurement opportunities.
GCA works at the heart of government purchasing, connecting public sector organisations with suppliers that can help deliver better outcomes for communities across the UK.
During your one-to-one meeting, you'll have the chance to discuss your products or services, understand how public sector procurement works, explore routes to market, and learn about upcoming opportunities and frameworks that may be relevant to your business.
Whether you're new to public sector supply chains or looking to expand your presence within government and public sector markets, this is an opportunity to gain practical advice and make valuable connections with a key organisation shaping commercial and procurement activity across the UK.

Travis Perkins Managed Services Procurement Process:
Travis Perkins Managed Services operates through an established approved supply chain. Any new supplier opportunities are subject to an identified business requirement and our internal procurement, commercial, compliance and onboarding processes.

Specific Requirements:
Damp, Mould & Ventilation - Damp, mould and condensation treatment/prevention products, ventilation solutions and associated specialist products suitable for use within occupied social housing properties.
Showering Adaptations / accessibility - Specialist accessible living and property adaptation products, including bathroom, showering and independent living solutions suitable for social housing properties.
Sustainable Low - Carbon Products - Sustainable and lower-carbon building products suitable for repair and maintenance of existing social housing, including products that reduce waste, improve energy efficiency or provide credible environmental benefits over conventional alternatives.
