

EAST LONDON MEET THE BUYER EVENT

EVENT BROCHURE 2024

LONDON CITY AIRPORT'S EAST LONDON MEET THE BUYER 2024

In the bustling heart of East London, SMEs have a unique chance to connect with major buyers during London City Airport's East London Meet the Buyer event on Thursday 12th September 2024, which this year has returned the prestigious ExCeL, London.

Meet the Buyer brings together key players in the public and private sector while offering local businesses an opportunity to showcase their products and services.

With over £8M in business generated from the previous two events in 2022 and 2023, the event is looking to create even greater opportunities for local firms to connect with high-value buyers and secure major contracts.

As always, the day is filled with pre-arranged one-to-one appointments between the buyers and suppliers, an exhibition to find exciting new products and services, along with support for your business through practical seminars, addressing the most pertinent business challenges.

Buyers attending the event can take advantage of connecting with relevant suppliers, helping to streamline their supply chains and reduce costs by working locally.

London City Airport do an amazing job at supporting local businesses and bringing this event to us each year, to give SMEs the opportunity to connect directly with major buyers and decision-makers that are looking for their products and services.

We'd also like to thank our sponsors for supporting this event and proving that this model really does work.

To the delegates, we want you to make the most of this event. We encourage you to meet our wonderful exhibitors, attend our expert-led seminars, and have inspiring conversations with your fellow entrepreneurs and business leaders.

OUR WORKSHOP HOSTS

UMi

Since 2007, we've been finding and packaging the best information, expertise and finance to help businesses make better decisions more quickly.

- We've worked with more than 600,000 businesses across the UK.
- We've helped leverage more than £650m of private sector investment.
- We've supported business growth resulting in more than 40,000 jobs being created or safeguarded.
- We've defrayed more than £300m in grants and loans.
- We've facilitated more than £185m of contract wins.
- We've inspired and championed business through more than 1,100 events, campaigns and trade missions.

ALCUMUS SAFECONTRACTOR

Alcumus Supply Chain Compliance connects verified suppliers and contractors in a two-way commitment to ethical best practice and sustainable business growth.

Alcumus SafeContractor takes the pain out of compliance for over 50,000 organisations globally, helping them protect their people, their operations, and the planet. We support our network of hiring clients, contractors and suppliers to become and remain compliant with the standards that matter most, from health and safety and sustainability to ethical behaviour

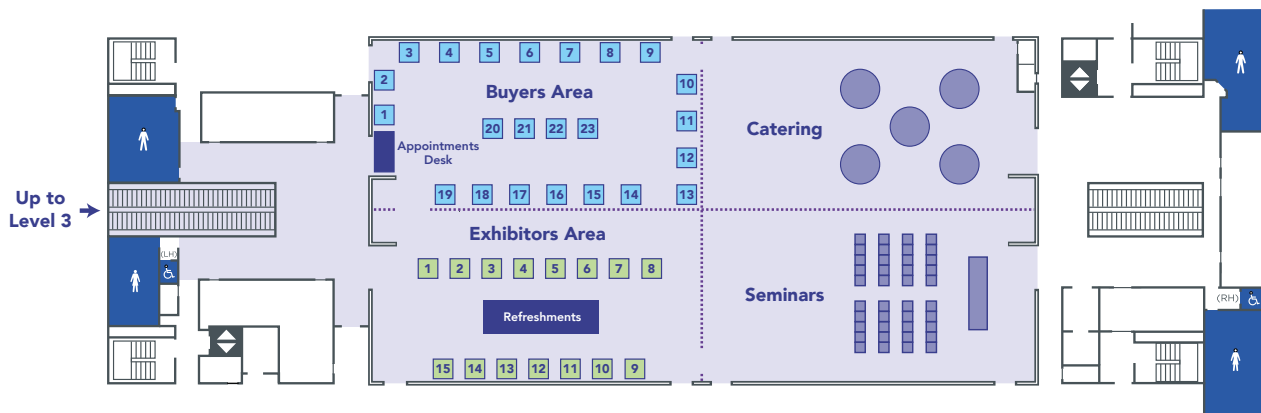

BARCLAYS

Barclays Bank has over 300 years of rich history supporting businesses, consumers and the community. We would like to be recognized as the Go-to Banking partner for growth, a place where entrepreneurs start, scale and achieve their growth ambitions with access to expert advice and support. We are a team which aligns itself to the diversity of the SME communities, industries and professional networks, building value added relationships that are supported by our ecosystem, expertise, industry focus and relationship approach.

Want to grow your business? Want to know more information around the different types of funding that is available to help your business grow and succeed, then look no further. We will be hosting a lending masterclass around the different avenues to access finance and what type of finance would suit your business needs. We will have a Q&A session to answer any burning questions you may have.

ABOUT

ExCeL London, part of ADNEC Group, first opened in November 2000, in an area of huge regeneration in London's historic Royal Docks. Almost 25 years later it has become one of Europe's largest and most successful event venues, hosting some 400 shows per year and welcoming around four million visitors from every corner of the globe.

From major medical congresses including the European Society of Cardiology, through to the World Travel Market trade show and the all-electric Formula E motorsport championship, ExCeL hosts an array of events all bringing communities and businesses together through the power of face-to-face. Indeed, events hosted at ExCeL generate around £4.5 billion in economic impact for London and support approximately 37,500 jobs throughout the events industry. Over recent years, ExCeL has seen significant investment by owners ADNEC Group in its facilities, and is currently embarking on an additional 25,000sqm expansion programme opening soon.

More recently, it has played host to an array of immersive experiences including Jurassic World: The Exhibition, Kingdom of Winter and the Disney100 Exhibition, inspiration behind ExCeL's new Immerse LDN – a kilometre stretch of newly developed waterfront space set to become the capital's newest and the UK's largest immersive entertainment district.

ExCeL also prides itself on championing sustainability and is certified carbon neutral – the first UK venue of its kind to achieve the international recognised PAS 2060 status – and has pledged a net zero target of 2050.

ABOUT

Speedy Hire Plc is the UK's leading provider of tool, equipment, plant hire and specialist services to the construction and infrastructure sectors. The Company employs over 3,300 people, operating across 180 trading locations in the UK. Its ambitious sustainable growth strategy is focused on continuous innovation to deliver commercially sustainable specialist products and solutions for customers to meet their carbon reduction targets.

Speedy Hire's industry-leading and award winning ESG strategy 'The Decade to Deliver' is driving its commitment to become a net zero business by 2040, ten years ahead of the UK Government target. As the first UK hire company to sign up to science-based targets Speedy Hire provides an extensive range of commercially sustainable products to reduce carbon emissions for its customers. It operates the largest electric commercial vehicle fleet in the industry, and its flagship Innovation Service Centre located in Milton Keynes holds a rare A+ EPC rating and provides the blueprint for the Company's future state property network. Speedy Hire Plc is independently rated by the Financial Times as a European Climate Leader, holds a silver EcoVadis rating, is a member of the UN Global Compact Network, and is ranked as an industry leader for sustainability with an ISS Prime status.

ABOUT

Tate & Lyle's Sugar Limited is a renowned British company that specializes in the production and distribution of sugar-based products. With its headquarters located in London, United Kingdom, the company has a rich history that dates back to 1878.

The company's product portfolio includes a wide range of sugar-based products, catering to various industries and consumer needs. From granulated sugar for everyday use to specialized sugars for baking, confectionery, and beverages, Tate & Lyle's Sugar Limited offers a diverse range of options to its customers.

In October 2010, American Sugar Holdings (ASR Group) acquired the EU sugar refining businesses of Tate & Lyle PLC, namely Tate & Lyle Sugars in the UK and Sidul in Portugal. This was an important milestone, as these operations are now part of the world's largest cane sugar refining company with operations in North America, Central America, and Europe. The European businesses have approximately 1,300 direct and contract employees (inc. shares in joint ventures) manufacturing sugar at our three refineries and associated manufacturing sites. The cane sugar supply chain which supplies them stretches across the world.

The business focuses principally on bringing specialty sugars and functional ingredients made from sugar cane to the EU marketplace.
